

Farm Manager

Coral Beach Farms Ltd. is a fully integrated sweet cherry producer, located in Lake Country, BC. This growing operation, which maintains several unique geographical locations throughout the North Okanagan Valley, is the largest cherry packing organization in Canada with 350 acres of cherries currently in production with the potential of 600 producing acres within the next 3 years.

To meet the demands of this growing company, we are seeking motivated individuals eager to learn and be challenged to join our dedicated team and are pleased to accept applications for the position of Farm Manager for two independent locations.

The successful applicant will be responsible for:

- Administering day-to-day operations for approximately 120 acres of producing cherries which include:
 - Nutrient, chemical and weed spraying
 - Mowing
 - Pruning (summer and winter)
 - Harvesting of all blocks in a timely and efficient manner
 - Maintenance and repair of buildings, farm equipment and irrigation systems
- Implementing strategies for maximum yield
- Managing staff in upwards of 200 individuals from a diverse cultural background
 - Training of staff will also be required
- Operating farm equipment

Requirements and Qualifications:

- Broad knowledge of horticultural production
- Ability to communicate with staff and employees of varying backgrounds in a courteous and effective manner
- Ability to mentor staff in a professional manner
- Ability to work independently and have technical and practical competence to meet the daily demands of farming while maintaining progress against budget parameters
- Have a sound knowledge of health and safety standards and a commitment to promoting safe farming practices
- Farming background and experience in planning and production will be considered an asset
- Ability to speak Spanish to communicate with Spanish speaking workforce an asset

Salary:

- Competitive salary commensurate with experience.
